OMB Control Number: 0579-0282.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 et seq.) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in “Subpart—Fruits and Vegetables” (7 CFR 319.56-1 through 319.56-71).

In accordance with § 319.56-42, peppers from the Republic of Korea are subject to certain conditions before entering the continental United States to prevent the introduction of plant pests into the United States. The regulations include requirements for greenhouse registration and inspection by officials of the National Plant Quarantine Service (NPQS) of the

Republic of Korea and the use of a phytosanitary certificate with a declaration by NPQS officials stating the peppers were grown in greenhouses in accordance with the regulations and inspected and found free of the listed plant pests.

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.67 hours per response.

Respondents: National Plant Quarantine Service of the Republic of Korea.

Estimated annual number of respondents: 2.

Estimated annual number of responses per respondent: 3.

Estimated annual number of responses: 6.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
